# OUTWELL® TENTS

*your country home*

As enthusiastic family campers, we want everyone to enjoy a carefree life outdoors. We want your memories to be happy ones that leave you wanting more.

We aim to offer you the ultimate close-to-nature lifestyle in home-from-home comfort, safety and style. This is why we work hard to ensure our tents offer Outwell® innovation, quality, ease of use and head-turning good looks that stand out from the crowd.

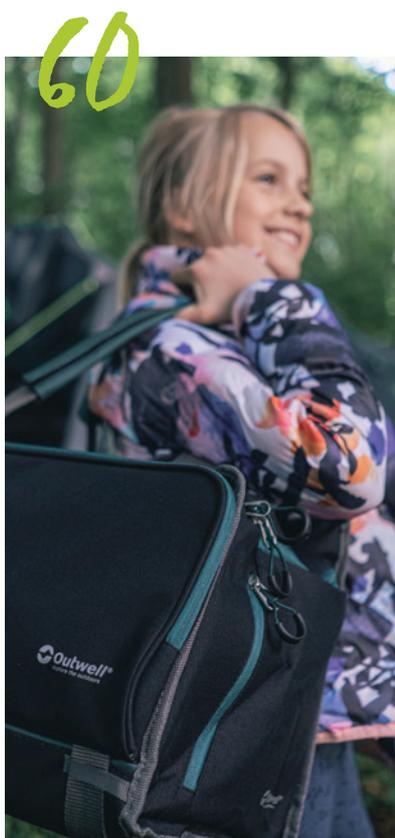

Our research and development revolves around you, the camper. Our vast experience and market-leading test facilities bring you superior tent designs and features that are often copied but never bettered. Our comprehensive portfolio provides all you need for quality family holidays. It's the Outwell Family Camping Experience, bringing our enthusiastic community together to share all that's good about camping life.

# DANISH DESIGN

*and quality*

Buying a tent is like investing in your house. It has to fulfil various criteria that allows you and your loved ones to safely relax. And, while performance is critical, your country home needs to be sympathetically dressed to be as visually appealing as it is practical. Well, don't worry. Outwell has the answers...

**W**hen it comes to designing a family tent we consider all aspects to meet and exceed expectations. This starts with ideas we get from our own experience and that of Outwell family campers and our retailers.

A good example of such engagement is our Active Collection of vehicle awnings. The rapidly growing trend for camping from small utility vehicles, SUVs and campervans requires a new generation of awning and our Active collection draws on our technical heritage to fulfil the need for rapidly pitched shelters that add valuable living space. Our latest awnings certainly have tremendous appeal!

There is a lot of hard work to bring such ideas to the market. We work closely with material manufacturers to develop our own fabrics and source the best accessories that go into a tent's construction. It is also central to developing an innovative feature.

As an idea turns to reality, we start to subject our new tents and awnings to extreme conditions, including time spent in our unique wind and rain test facilities. This helps us identify and rectify potential problems, plus develop features like our trademarked

*Our Outwell design ethos builds heavily on our Scandinavian heritage where form follows function to bring the optimum close to nature camping experience in comfort, safety and style.*

*Outwell is your one-stop brand for everything needed to fully equip your tent or awning in eye-catching style. Performance, quality and comfort guaranteed as you enjoy life close to nature...*

Wind Stabilizer System. Samples are also tested in the field to ensure performance exceeds expectations – a process that continues with retail, media, test team and consumer feedback sent to our R&D team to aid future development.

For us, comfort is key to realising dreams. Our tents and vehicle awnings not only perform in extremes but also contain a wealth of features that improve outdoor living. Just check out the way our tent vents and mesh door panels provide optimum ventilation efficiency, working in tandem with tent colour distribution and features like our large tinted windows, to create the best possible internal environment.

Other examples of feature design include our sleep comfort ratings, coupled with large bedrooms that include the full-featured Ambassador Master Bedrooms, to bring easily understood ultimate choice that ensures you get that vital good night's sleep. Then there is our highly acclaimed award-winning Quick & Quiet magnetic door closures, plus the space enhancing Wing Lounge and the clever HookTrack System that allows you to suspend lighting where needed or keep small items, like tea towels, close to hand.

We also realise that this is only part of the story and we aim to be your one-stop shopping brand offering all you need for a comfortable and smooth camping experience. After all, quality

time spent with the family is the foundation of happy family memories and we want you and your family to have the best. You need to dress your tent in your own style and create your perfect home at the campsite. And you can rest assured that our sleeping bags, beds, furniture, cooking gear and more work in harmony with tent design to ensure you enjoy the ultimate Outwell Camping Experience that leaves you wanting more.

*Fresh air in, keep bugs out! We continue to work hard to ensure our tents and vehicle awnings enjoy maximum, efficient ventilation while maintaining a close to nature experience free of insects.*

# STAY AT HOME *Camping* FOR FAMILY FUN

Forget the tech. Time for the family to discover how much fun it is to explore the delights provided by Mother Nature. And camping is the best way for you all to enjoy the experience. There is so much to be gained from an active life outdoors...

*"The kids soon discovered how nice it was to snuggle up under a blanket on our Outwell Aberdeen Lake inflatable sofa."*

*"Dinner time is welcome after a day of family fun. And Outwell has everything needed to create a superb family meal!"*

“

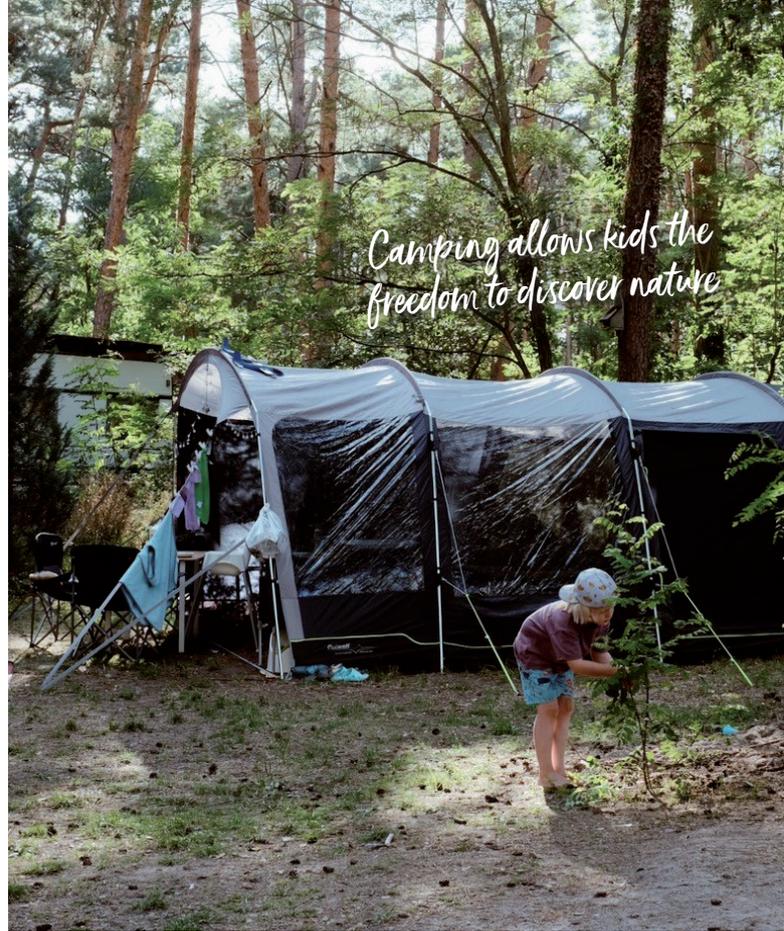

CAMPING WITH KIDS IS SUPER EASY. THERE IS ALWAYS SOMETHING TO DO TOGETHER AS A FAMILY.

So much research has been carried out in recent years about the benefits of that close-to-nature lifestyle that campers enjoy. Physical and mental wellbeing is proven. And you cannot deny the pleasure that spending quality time with your loved ones brings.

It is also an ideal opportunity to increase a child's fitness, allowing them to run off steam in an environment where they can do little harm. It encourages exploration and making friends with other children on the campsite. It offers the chance to look after and use their own camping kit and provides a playful environment in which to help parents with chores. Such self-reliance is just one of the many life skills that camping develops.

It is why the Hennig family chose to take up camping this year. Dad, Francis, was certainly keen to encourage a new perspective to their already active lifestyle close to nature. And mum, Heidi, loved the idea of decking out their tent with flowers, lights and blankets for that true glamping experience. It's the perfect way to create a happy atmosphere in their country home.

And their hopes were fulfilled for, after two camping trips, their boys Oskar (5) and Frido (2) are already in love with life in a tent.

Plenty of space to play inside and out, with luxury furniture to collapse into when energy levels run dry. As for the excitement of not knowing what the next day will bring or what adventure lies around the corner...

In fact, there is rarely, if ever, a dull moment. Parents should never be stuck for things to do when camping. Trips away, ball games, walks, bike rides, treasure maps to draw, and more. Plus, the prospect of a hearty meal outdoors with a campfire for toasted marshmallows. As Francis says: "Camping with kids is super easy. Always things to do together as a family. We enjoyed every moment and cannot wait to go again!"

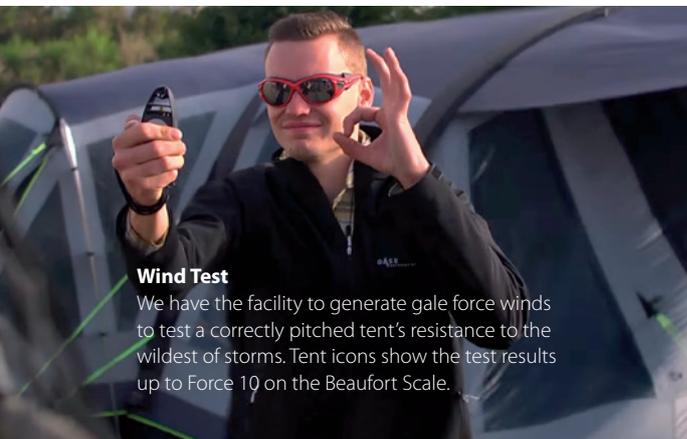

"Our Outwell Colorado 6PE provided a light, spacious room for kids to play and for adults to kick back and relax. It really has the perfect bright, cheerful internal ambience needed for family camping. Plus, it has a useful porch for cooking under – it's our ideal home from home."

# FLYSHEET

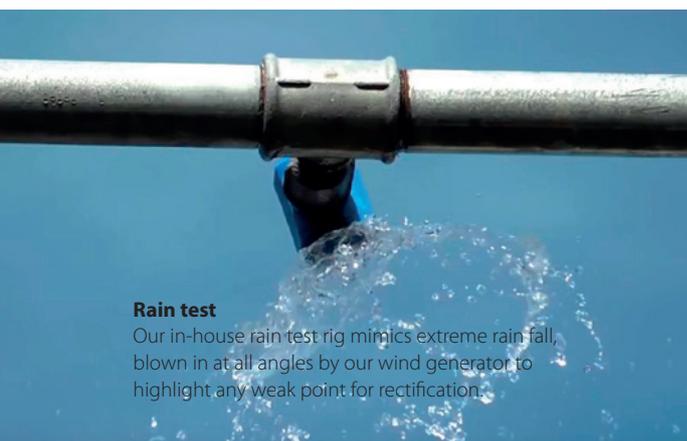

## materials

Our latest Outtex® 6000 Endurance RS fabric proves we never stop material development to meet the specific needs of family campers. Four times stronger than standard, it shows we ensure fabric technology works in synergy with a tent's design to provide the best performance for the perfect holiday experience.

### Wind Test

We have the facility to generate gale force winds to test a correctly pitched tent's resistance to the wildest of storms. Tent icons show the test results up to Force 10 on the Beaufort Scale.

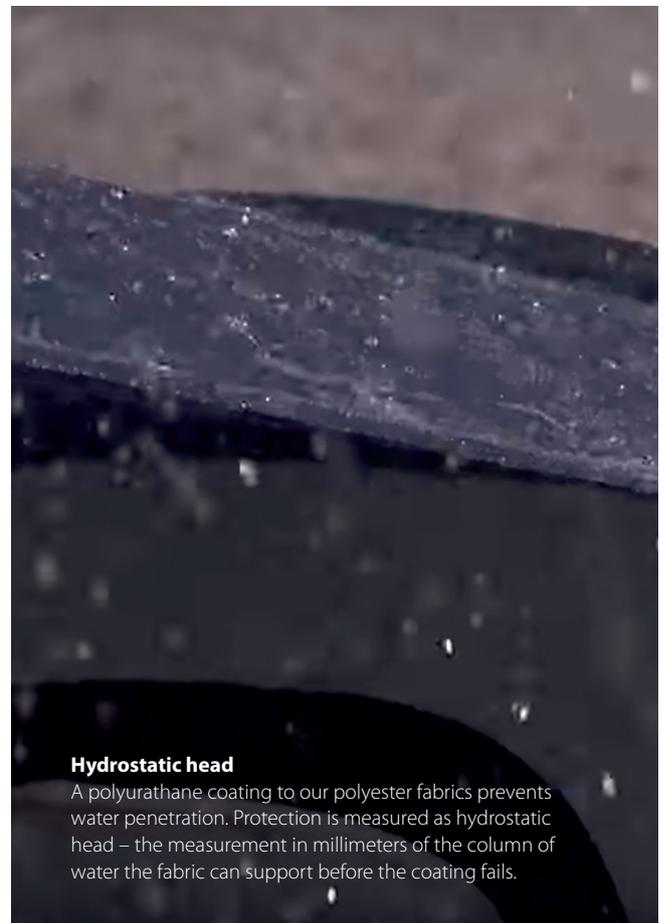

### Rain test

Our in-house rain test rig mimics extreme rain fall, blown in at all angles by our wind generator to highlight any weak point for rectification.

**W**hen it comes to designing a family tent we consider all aspects to meet and exceed expectations. This includes the materials used and we work closely with material manufacturers to create unique quality fabrics that enhance performance to ensure a family can camp in comfort, safety and style. All our fabrics are based on either 100 per cent polyester fibres that are treated and woven to maximise resistance to UV-light and the rigours of outdoor life, or our own cotton and polyester blend to produce a breathable technical cotton that helps minimise condensation and maintain a tent's microclimate at a comfortable level no matter the outside temperature.

Our polyester fabrics are PU-coated to provide an elevated level of waterproofness while the tight weave of our polycotton fabric, aided by a durable water repellent treatment, resists water penetration until the cotton swells to close the gaps in the weave against water entry. Water vapour can still pass across the fabric to prevent condensation forming.

### Hydrostatic head

A polyurathane coating to our polyester fabrics prevents water penetration. Protection is measured as hydrostatic head – the measurement in millimeters of the column of water the fabric can support before the coating fails.

# TENT icons

**Hooktrack System**  
Strategically placed tracks allow the placement of special hooks from which to run cables and attach lightweight accessories.

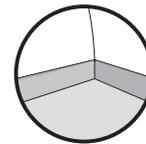

**Quick & Quiet Inner Door**  
Magnetic strips sewn into the vertical seam of the inner doors allow quick and quiet bedroom entry and exit with the option of zips.

**Ambassador Master Bedroom**  
Enlarged inners with a length of 230cm offer more scope for mobility and storage with stand up height.

**Quick & Quiet Access**  
Magnetic closure offers quick, convenient and silent access between zones.

**Sewn-in Ground System**  
Our own specially developed method of sealing the groundsheet to the flysheet.

**Premier Bedroom**  
Comfortable bedrooms offering benchmark floor space and stand up height, minimum 215cm length.

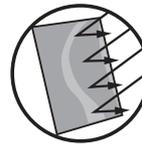

**Fire Retardant**  
Material meets all the latest regulations for tent materials.

**Zip-up Curtain**  
Curtains with a cleaver zip attachment system, letting in as much, or as little, daylight, as required.

**Toggle-up Curtain**  
Well-placed toggle fittings allow flexibility of choice between views out and night-time privacy.

**Tinted Windows**  
Windows with a tinted coating that protects against the sun's glare and provides privacy while maintaining great views out.

**Dark Inner**  
Dark roof panel and sides reduce light penetration to improve sleep quality.

**Cable Entry Point**  
Zipped section to allow a mains lead to be safely run into the tent.

**Floating Guylines System**  
A single luminous guylines connects two upper guylines to the peg reducing the risk of tripping.

**Wind Brace System**  
Uses supportive webbing in key positions along an air tube to provide enhanced stability in the wind by minimising any movement.

**3rd Zone Groundsheet**  
Footprint with integrated bathtub-style front groundsheet for three-zone tents.

**Aerodynamic Storm Protection, Force 10**  
The aerodynamic shape of the tent ensures stability. Wind tested against the Beaufort scale to whole gale, Force 10.

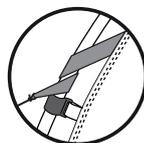

**Storm Guylines**  
Heavy duty quick-adjust storm straps enhance guylines security in high winds.

**Easy Access System with mesh**  
Main door folds to one side and the groundsheet lies flush with the ground for safe, easy access to run cables and attach lightweight accessories.

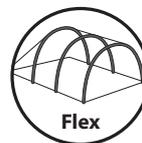

**Hanging Point System**  
Attaches the inners with a toggle through the suspension point taped to the tent for strength and security.

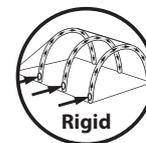

**Wind Guard System**  
Guy line system that links outer with pole with peg for enhanced stability in windy conditions.

**Power Air System**  
Offers individual tubes that are inflated and deflated separately via external valves. An extra tube is attached manually for extra stability.

**Flex Frame System**  
Our Duratec pole system provides flexibility, easy handling and low weight.

**Rigid Air System**  
Features individual tubes that are inflated and deflated separately via easy access external valves.

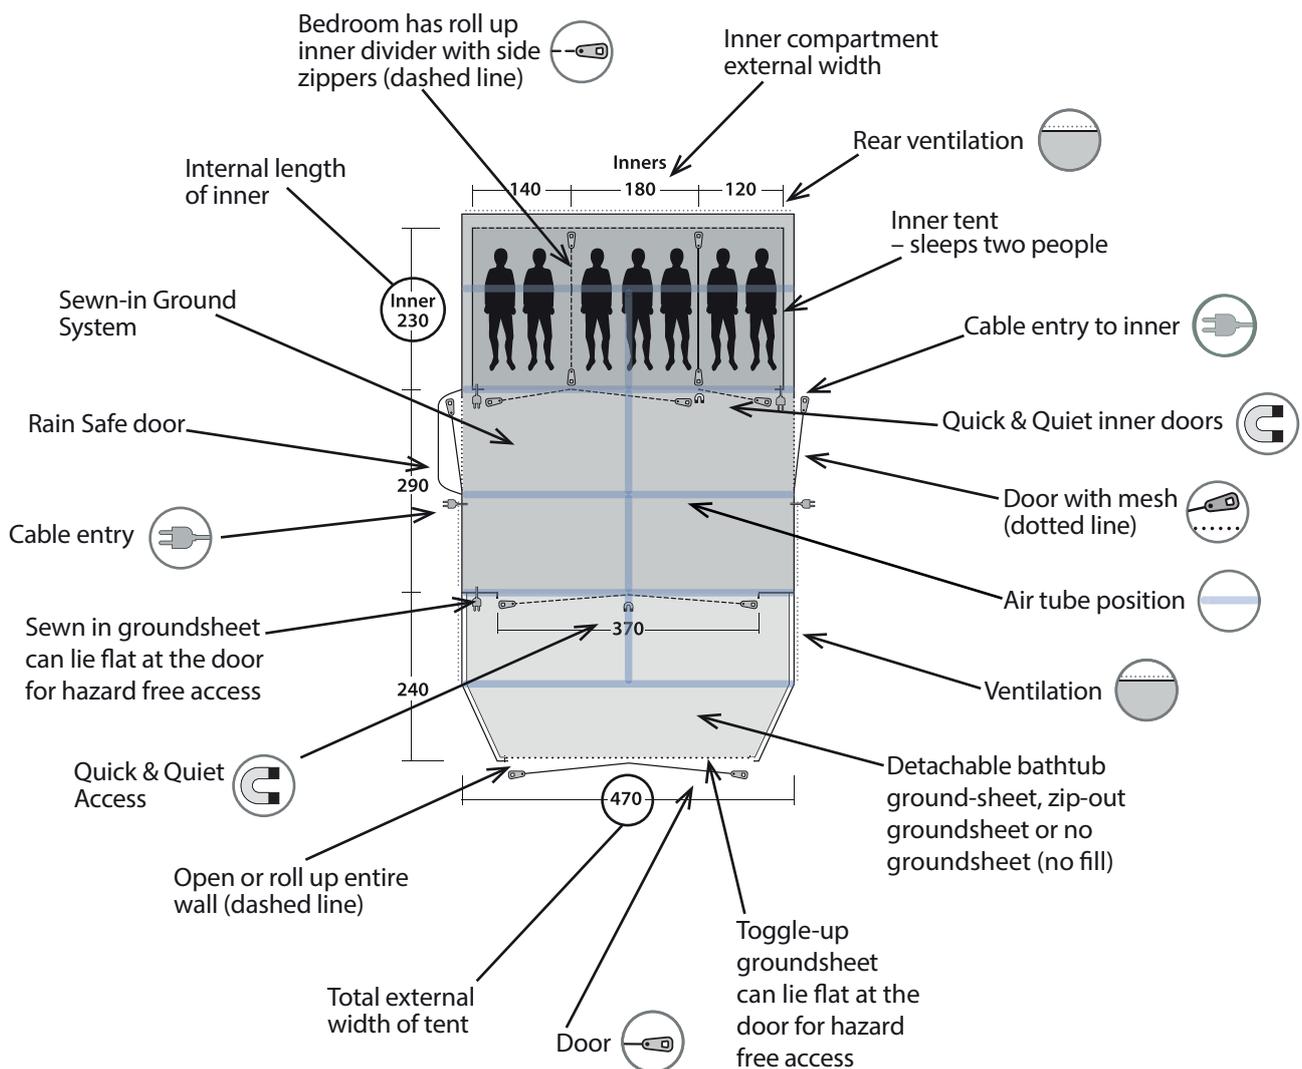

**Power Stability System**  
Our rigid steel pole system that allows increased headroom and internal space inside the tent.

## PREMIUM COLLECTION

A collection of spacious family tents enjoys the superb performance of our Outtex® 6000 Pro embossed fabric with a smart, sophisticated colourway and Outwell® neon piping. All combine the design innovation, style, quality and long-term performance expected by keen campers. The Outwell Power Stability System with pre-bent steel poles, supported by webbing and tension loops, offers ample headroom and internal space.

*Your passport to a joyful family life outdoors*

### Montana 6PE - Rain Safe entry

Protected side entry with removable groundsheet creates a handy enclosed porch for wet, muddy clothes and storage.

### Rockland 5P Moveable Front

Move the front wall forward to increase the living room. Move it back to create a big porch. Or leave out for that close to nature experience.

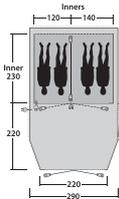

## FEATURES

- Outtex® 6000 Pro – super tough and durable
- Power Stability System – steel poles for strength
- Windforce 9 – stability in stormy conditions
- Ambassador Master Bedroom – generous space and standing height

# OPTIONAL EXTRAS

## for home comfort

We offer several optional extras to further enhance the Outwell Camping Experience and ensure you fully enjoy your family camping holiday in comfort no matter when or where you stay.

**S**o soft and toasty. We've always taken an innovative approach to optional extras and our carpets really take camping comfort to a new level with extra underfoot insulation and luxury. The option to slip off shoes and socks to enjoy 'barefoot camping' is so appreciated that many family campers now consider our carpets a camping essential.

And our introduction of footprints provides practical protection for the groundsheet from dirt, punctures and abrasions, as well as making cleaning and maintenance an easier task. To use correctly they should be fully covered by the tent to prevent water from seeping between the groundsheet and the footprint. Once correctly positioned, they prove an invaluable addition to your tent.

### CARPET

- Wall-to-wall carpet
- Small packed size
- Integral packing sleeve
- Material: Front: Lylex 100% polyester  
Back: 100% polyester PVC

### FOOTPRINT

- Cut to fit the groundfloor of the tent (Pegs included)
- Material: Double-coated 100% Polyethylene, 10,000 mm hydrostatic head

# UTILITY TENTS

Open opportunities by taking your own facilities to simple sites away from the crowd. Our Comfort Stations provide sheltered privacy for toilet and shower right next to your tent or campervan. Add more privacy and protection using our shelters and windscreens to shield from nosy neighbours and chilly winds. Our Free Standing Inner is designed to add a handy bedroom or storage space to tent Wing Lounges or vehicle awnings but can also provide external shade for the kids to play in on those sunny days.

*Add comfort, privacy and convenience to your pitch*

# VEHICLE AWNINGS

## 2022

Life on the open road brings a feeling of freedom. Enjoy new adventures each day as you travel the country or explore around your campsite. Whatever your life choice, add valuable space to your unit with an Outwell® vehicle awning.

An Outwell vehicle awning offers versatile extra space to a multitude of vehicles, from campervans and panel van conversions to SUVs and off-roaders. They have been one of the market's best kept secrets for years, recognised by discerning owners for their unrivalled quality, performance and style. It is a reputation we're proud to build upon as we address the needs of today's adventurous camper community.

Our traditional choice of pole or inflatable drive-aways provide living space, many with bedroom options, for multiday use on a campsite. They create a comfortable base for meal preparation, dining, relaxation and storage while allowing the vehicle to be used for daily trips away safe in the knowledge that the pitch and awning contents are safe in your absence. Tailgate, parallel, right angle: a choice of pitching positions offer versatility to match a site's demands and a vehicle's access points.

The latest generation of vehicle awnings sees our highly acclaimed Active range add models to suit the growing trend

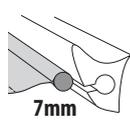

for using a light commercial, off-roader or small people carrier for camping, events and days away where a privacy shelter may be required for changing.

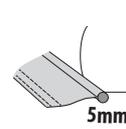

Suitable for tailgate and rear door access, these fixed awnings minimise pegging by quickly and simply attaching to the rear of a vehicle to create living space that complements a makeshift bedroom in the vehicle. The designs cement Outwell as the go-to brand for superlative products designed by experienced users.

**California rail.**

**Aftermarket rail. Reimo etc.**

**Wind-out canopies, Thule, Flamma etc.**

---

### DUAL BEADING BY OUTWELL

An Outwell drive-away awning is supplied with dual beading for use with all common factory fitted and aftermarket rails. The 5mm is suitable for rails fitted to wind-out canopies such as those found on some models by Thule and Fiamma. The 7mm is perfect for aftermarket rails like Reimo, Mercedes Benz factory rails and also some wind-out canopies. Use together to attach an awning to a VW California rail.

---

# ACTIVE COLLECTION

Expand your horizons in comfort with the Outwell® Active Collection of versatile vehicle awnings for life on the open road. Whether you're camping and touring, enjoying days at the beach or setting a base for active outdoor pursuits, our Active designs liberate you from the confines of your vehicle. You can connect with nature and embrace life outdoors with our drive-away awnings and light, compact shelter solutions.

*Designed to help  
free the  
adventurous spirit*

**Wheel attachment for hard standings**  
Wheel attachment system makes it easy to use on hard ground.

**Vehicle attachment System**  
Attachment design creates a new guying system to provide unhindered access to doors.

**Sandcrest versatility**  
Tail-mounted Sandcrest multiple door options include use as sun canopy (king poles not included) and roll-away side panels for sheltered access.

## FEATURES

- Outtex® 3000 Select – for regular general camping
- Aluminium alloy poles – high strength, low weight
- Windforce 10 (except Fieldcrest Canopy) – ultimate storm protection

# CRUISING COLLECTION

The Outwell® Cruising Collection of drive-away awnings uses Outtex® 3000 Select fabric with our sturdy DuratecFlex System of fibreglass poles plus Guyline Retainer System and Easy Pegging System to offer flexible space and convenience. Featuring our HookTrack System to allow lighting and other items to be hung securely inside, all can be set up quickly and easily and left freestanding to secure a pitch on days out.

*Explore the open road  
in comfort, safety  
and style*

### Duratec Poles

Outwell glass fibre poles provide strength and rigidity while keeping weight down.

### Dual beading to fit all standard rails

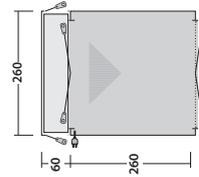

To address different rail sizes our awnings feature both 5mm and 7mm beading.

### Mesh Door

Door, mesh door or fully open... all Cruising models offer versatile door options to suit weather and needs.

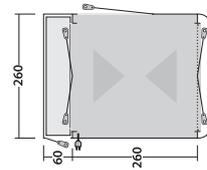

## FEATURES

“

WE OFFER NUMEROUS METHODS  
TO TAKE THE FUSS OUT OF  
SECURELY CONNECTING OUTWELL®  
AWNINGS TO YOUR VEHICLE

# CONNECTING SET OPTIONS

*by Outwell*

Don't struggle to disconnect and reconnect your pitched drive-away awning. Our connector sets make life so easy!

## DUAL BEADING CONNECT SET

So convenient – we provide both 5mm + 7mm beads to cover multiple rail sizes. Use both together to fit the VW California Rail.

## 7-5 MM TOURING CONNECT SET

Want to fit your awning to the rail on a Thule/Fiamma/Dometic/Westfalia wind-out awning? Then this handy set is all you'll need.

## MAGNETIC BAND CONNECTER

If you don't have an awning rail then this is the perfect way to connect awnings and more to a steel roof.

## 7-7 MM TOURING CONNECT SET

For carefree days out from the campsite simply use this set to easily disconnect and attach your vehicle from awning

# SLEEP TIGHT

*with Outwell*

Sleep comfort is essential to the enjoyment of a camping holiday and we offer many options to ensure your Outwell® bed offers the best night's rest

Our flocks, airbeds and sleep systems offer a superb choice of double and single designs to ensure you find a bed to meet your needs. All are underpinned by superb quality materials and features that include soft uppers, internal battery-operated pumps and extra height to mimic your bed at home. Simple bed making is key to our sleep systems that add comfort layers to SIMs and airbeds for extra luxury in a single package. There are even single and double camp bed options to keep you off the ground and provide extra underbed storage.

## FLOCKS

Deeper beds with a flock construction provide an excellent firm edge for enhanced stability. The tough PVC material is tempered by the soft velour top for unrivalled levels of comfort. No wonder it is the choice of many for camping and occasional home use.

**Flock Superior**  
– deep and sturdy flocks with built-in electric pump.

**Flock Excellent King**  
– allows you to sleep in luxury clear of the ground.

**Flock Classic**  
– also comes as a simple option without pump or pillow.

**Flock Classic**  
– complete with pillow and pump for convenience.

**Built-in foot pump**

## AIRBEDS

Soft next-to-skin fabric with an airtight TPU coating inside is an ideal combination for long term comfort, enhanced by internal support for durable performance. It makes the perfect bed for where transportation space is at a premium.

**Flow airbed**  
– comfort in a small, lightweight package.

**Comfort**  
Lightweight, soft and durable polyester pongee comfort.

**Dreamspell airbed**  
– 3D shape with deep profile offers a high degree of comfort.

**Wonderland**  
– Memory Foam for maximum luxury.

**Memory Foam**  
Memory Foam topper provides enhanced support and pressure distribution.

**SLEEP SYSTEM**

This is the carefree way to purchase a complete bed package. Options offer off-the-ground sleeping and various comfort finishes to suit needs and ensure a restful night.

**Reel airbed**  
– horizontal air channels for superb stability and comfort.

**Dreamland**  
Foam topper for enhanced insulation and comfort.

**Removable cover**  
Removable machine-washable quilted cover for comfort.

**Centuple**  
– Sleep Systems do not come better than this for ultimate comfort and practical convenience.

# LUXURY BEDROOM

## Comfort

Sleep happy, wake happy! Nothing sets you up better for the day ahead than a good night's sleep. This is why we prioritise sleep comfort. So, settle back for a taste the luxury – we are going to make sure you're as cozy as if you're in your own bed.

# SELF-INFLATING MATS

## Features

Sleep comfort is vital to the enjoyment of a camping holiday and we bring even more innovation for a great night's sleep.

If the high insulation levels provided through independent tests are not enough, our PFC-free self-inflating mats (SIMs) are the best yet. Intense research and major investment in manufacturing techniques enable us to offer you market-leading luxurious levels of sleep comfort.

Who else can bond non-stretch sides to a flexible top material to create a more stable 3D SIM that is quicker to inflate and deflate? And our unique coring technology eliminates cold spots, increases insulation and reduces packed size and weight. It also further reduces inflation and deflation times, aided by the high air flow provided by our new Flat High-Flow valve that's shared across our entire SIM range.

Outwell® performance and comfort equals quality sleep.

### Dreamboat

– is the very best in SIM development that combines 3D static wall design with superlative stretch top material and benefitting from the latest innovative features including core structure with thickness options.

Foam cut out

### Dreamhaven

– single and double 3D SIMs with horizontal core foam insulation in thickness ranging from 5.5cm to 10cm that balance excellent comfort with cost.

Foam cut out

### Dreamcatcher

– designed to fit neatly into Outwell bedrooms with a size option for the new VW California 6.1, these SIMs bring a new waveshaped foam core for comfort and volume reduction, enhanced by the latest horizontal core channels.

Foam cut out

### Sleepin

– single and double lightweight self-inflating mats, with Air Flow Control valve, offers options to meet the insulation expectations of touring campers seeking a compact design with full-size comfort.

solid foam

# SLEEP EASY

*and sleep well*

An Outwell® sleeping bag helps guarantee a good night's sleep and we offer a wide range of superlative products to suit all needs

**A**t the most basic, a complete sleep package comprises sleeping bag and mat. And we aim to ensure any camper purchasing that package from Outwell is provided with home-from-home levels of comfort. This is why we place huge resources into sleep comfort...

Campers appreciate how our ever-popular rectangular-style sleeping bags provide space to move at night along with the insulation to keep you comfortable when temperatures drop. These versatile designs are perfect for tent camping, caravanners and motorhome use.

However, we're not content to rest on our laurels. Today's camper requires other options to suit camping needs and we've introduced a range of mummy-style bags to help open new horizons.

Mummy sleeping bags offer a number of advantages over the rectangular style. They are shaped to reduce the amount of trapped air that saps body heat and they hold insulation closer to the sleeper – something especially appreciated if you suffer from cold feet.

*The comfort mummy shape of our Fir Lux sleeping bag offers side sleepers ultimate comfort. Opens fully to create a duvet for versatility.*

”

NEW FOR 2022  
BIRCH SLEEPING BAGS OFFER  
A COMFY BED FOR SPRING  
AND SUMMER CAMPING

In removing surplus material and insulation, mummy sleeping bags are also lighter and have a smaller packed size than the rectangular equivalent – perfect characteristics for anyone who experiences the storage and transportation spatial challenges associated with smaller houses and cars.

A traditional mummy sleeping bag isn't for everyone. While compact and comfortable, the snug fit can feel claustrophobic. This is why we have researched various cuts to tailor a sleeping bag to suit sleep styles.

An Outwell mummy sleeping bag is more spacious than a classic cut. And, while providing high levels of performance for all sleepers, a choice of profiles address more specific sleep positions.

But that's not all. We've also created new insulation fills to ensure a cosy haven no matter the outside temperature. These include Isoball that provides down-like compression and loft via lightweight polyester clusters that trap large volumes of air to provide enhanced comfort and insulation. We mix this with RDS down to create Isoball Down to couple the natural material's superior insulation, weight and compression/loft with synthetic's efficient moisture management.

So, if you want to sleep well then the choice is easy. Look to Outwell for your next sleeping bag.

*Hourglass cut for  
comfort at shoulder  
and knees*

#### **Isoball Downmix**

*This super soft Isoball and down mix offers the superior insulation, weight and compression/loft benefits of down with synthetic's efficient moisture management.*

# MUMMY-STYLE SLEEPING BAGS

*Super soft fabric  
for cosy comfort*

## OAK

Shaped to enhance comfort for shoulders and knees. A perfect balance between warmth and small packed size is achieved by using our new Isoball fibre under the sleeper and a Isoball fibre/down mix on top for better loft.

## FIR

Packing down small for easy transportation and storage, Fir sleeping bags' comfort mummy shape, Isofill Premium Recycled insulation and super soft fabric provide cosy comfort with foot ventilation.

## BIRCH

Three models offer superb comfort for camping most of the year. Their classic mummy shape ensures a snug fit whilst heat retention can be easily adjusted via the side zip. The straightforward bags use cosy Isofill insulation with a super soft fabric for stylish performance.

*NEW  
for 2022*

*Junior  
edition*

## PINE

Pine sleeping bags offer superb comfort for camping most of the year. Their classic mummy shape ensures a snug fit whilst heat retention can be easily adjusted via the side zip. Three models are joined by a smaller Junior option.

# RECTANGULAR SLEEPING BAGS

## CONSTELLATION

Offers outstanding comfort levels thanks to ultra-soft brushed outer, cotton lining and premium fill.

## CAMPER

The iconic Outwell sleeping bag that's a firm favourite with discerning family campers.

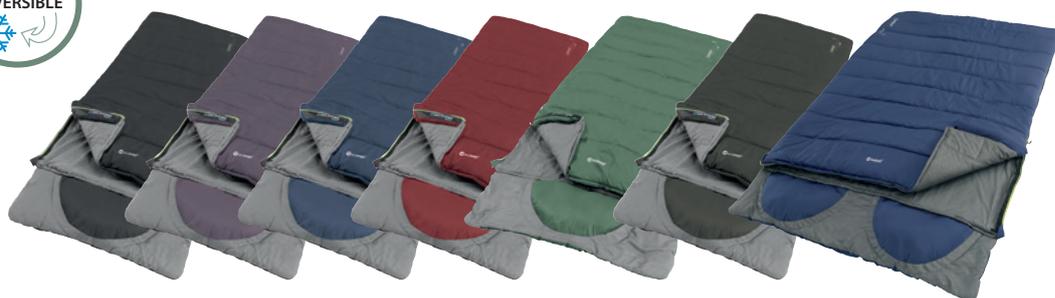

## CANELLA

Perfect for hot weather and touring where space is at a premium, such as small cars, campervans, caravans and flights.

## CONTOUR

Our Contour Collection offers true versatility as the designs are suitable for varying temperatures. Just choose which side is used on top to suit the season.

## KIDS/JUNIOR

Youngsters are not forgotten – check out our wide range of full-featured bags.

## CAMPION

A good-looking range of sleeping bags packed with great features for general summer use.

## CELEBRATION

Super fluffy insulation provides a truly snug bed that can quickly convert to a duvet.

This small, stylish side table is easy to assemble and pack away

# BECOME A TIDY Camper

If you're forever tripping over toys, or can never find anything, or mix clean with dirty clothes, then it's time to invest in an Outwell storage solution to keep things neat and tidy...

**A** camping holiday is a time to relax. But an untidy tent or awning is guaranteed to raise the temperature as you struggle to find things or pick your way through a floor full of toys and knick-knacks. Yet peace of mind is easily achieved – just invest in an Outwell storage solution!

We have a cupboard for every room. If you need a bedside table then our Cayon Cabinet is the perfect place for a lamp and somewhere to store bedside essentials. Our Tinos offers similar convenience for chair-side use, with two shelves and side pockets adding handy places to store your electronics close to hand.

Larger items are catered for, too. Multiple shelving units with space-saving internal frames store clothes and camping kit, with options to 'detach' and create a hanging space for delicates. The hard tops provide useful display and work surfaces.

If all this sounds a tad utilitarian, then check out the Cabinets. Quick to erect thanks to the X-frame, they feature magnetic closing drop down doors that are eminently practical yet provide a living room style that adds to the ambiance of any tent or awning.

*Neat, stylish and practical, the Cayon makes the perfect coffee table or bedside cabinet*

*The Aruba cabinet offers plenty of storage space that's easily accessed thanks to the highly-acclaimed magnetic doors*

## CUPBOARD

The internal frame used in these designs offers increased internal storage space for the packed size, enhanced by external pockets and daisy chain.

**Skyros**

**Milos**

**Tinos**

## CABINET STYLE

Our latest storage solutions use dropdown doors held closed by magnets. Simple and quiet to use, they open with a flick of the finger to reveal a huge opening for easy access.

**Aruba Cabinet**

**Bahamas Cabinet**

**Domingo Cabinet**

**Cayon Cabinet**

## SIT & STORE!

Make the most of valuable space with versatile furniture that fulfils more than just one function. Our fold flat storage options also act as stable stool-style seating and great bedside tables!

PICNICS, EVENTS, CAMPING, TRIPS TO THE SUPERMARKET – A GOOD COOL BOX ENSURES YOUR FOOD STAYS FRESH AND SAFE

# KEEP COOL

*all day long*

Freezers and cool boxes... these are equally useful at home as on the campsite. And our models suit all needs.

**N**o camping trip, picnic, festival or trip to the supermarket is complete without a way to keep products frozen, food fresh and drinks cold. Not only does this allow you to expand culinary horizons but it avoids spoilage and subsequent health issues. And a freezer or cool box provides the ideal way to keep things cool...

Our compressor freezers allow you to store food for longer and bring iced drinks to the table. Our highly efficient electric cool boxes use few moving parts to quietly keep food and drink cool. Fill our passive coolers with ice to cool over long periods. No matter the choice, you'll find our easy-clean superb materials and enhanced performance will ensure fresh food and cold drinks are always on hand.

**Deep Cool**  
 – uses 12V/230V compressor technology to accurately keep contents frozen or cool. Three capacities with two compartments and a removable basket in the larger model.

**Fulmar**  
 – tough, rugged and highly efficient passive coolers for use on site and at outdoor events where there is no power.

**ECOLux**  
 – two sizes in pristine white with stainless steel and bamboo highlights, plus advanced features and performance to match, is pure high tech style.

**ECOcool**  
 – the original and popular high-performance model in 24- and 35-litre sizes.

**ECOcool Lite**  
 – simple 12V and 12V/230V 24-litre cool boxes exceed quality and performance expectations.

# KEEP IT *fresh*

An Outwell® insulated cool bag is so versatile and it is your perfect companion at home, for days out and on the pitch.

There's no excuse for not having an Outwell cool bag close at hand. They pack down small when not in use yet provide superb levels of independently tested insulation when needed. Not only perfect for keeping food and drinks fresh and cold but can be used to keep take-aways hot when driving home!

**Outwell®**  
explore the outdoors

**A** cool bag is so versatile. It is the one piece of camping equipment that can also play a daily role in home life. And we have an Outwell cool bag to suit all needs.

Key to versatility is their soft design that allows them to be collapsed down when not in use. Perfect for when storage space is at a premium, it also allows them to be kept in a car boot ready for chilled food shopping or for keeping a take-away hot during transportation.

All Outwell cool bags are designed to be easy to carry and clean. Wide openings ensure contents are equally easy to reach. And materials are carefully chosen to optimise resistance to the knocks of life outdoors and guarantee insulation exceeds expectations.

Soft designs do not mean lack of performance and all Outwell cool bags are independently tested to BS EN 12546-2:2000. To help you choose you'll find each cool bag carries an icon to show how long it will keep contents cool using an 800ml ice block.

You'll also find some neat innovation and styles used to further flexibility. Take the self-inflating foam used for insulation in our Pelican range. Compressed to store, just open the valve to inflate a highly efficient cool bag. And check out the Puffin. This stylish beach bag also includes a loose insulating bag for picnics.

NEW

**Penguin range**

– three tough easy-to-clean cool bags designed for convenient stowage and to take the knocks of outdoor adventures.

**Hula**

– offers a durable easy-to-maintain finish in a sleek contemporary style that appeals to today's active camper.

**Cormorant**

– new stylish cool bags in four sizes, including a backpack, keep contents cool for eight hours.

**Albatross**

– two stylish cool bags keep contents cool for eight hours and feature a solid removable interior box.

**Pelican**

– two self-inflating cool bags save space when not in use. Keeps contents cool for 15 hours.

**Petrel range**

– two cool bags keep cool for seven hours. Stylish Puffin beach bag features a loose insulating bag for day trips.

# SHARE THE *joy!*

Space to breathe close to nature. A chance to escape today's pressures. The opportunity for the family to explore new horizons together. Let's shout about everything outdoor life offers

**A**sk any regular camper about our great pastime and it is a good bet that they will enthusiastically push the social opportunities that outdoor life offers. That's not to say you cannot escape life's pressures for a little 'me' time. Just that it provides a chance to spend quality time relaxing with friends and family.

It is truly a pastime without boundaries. Meals are shared and good times enjoyed. It is something that stretches beyond the campsite as people stay in touch via social media – as our vibrant Facebook fan sites prove.

Yet the biggest benefit is the chance to reconnect with the family and close friends. Camping allows you to pool resources, allowing you to share chores to free up time to discover and

develop leisure interests. Ideas flow, providing easy to do activities that can be enjoyed together under the blue sky.

The fact you can have great fun socialising means even chores become a happy event. Turn them into family games with the children. Dinner times become a celebration of outdoor life that continues into the evening in the soft glow of the campfire.

Even better, kids love having their friends on the next pitch. They soon embrace the chance to make their own entertainment away from parents who will appreciate the opportunity to kick back and relax. And once the day's adventures finish you can retreat to your own tent for close to nature peace and quiet.

At Outwell, we want to encourage everyone to experience outdoor living so let's shout about camping to encourage others to take it up and bring their friends and family along.

And if you're new to camping – **WELCOME AND ENJOY!**

“

LONG HOLIDAYS TO SNATCHED WEEKENDS AWAY – OUTWELL IS YOUR FAMILY’S PASSPORT TO A BETTER LIFE CLOSE TO NATURE

*Sandcrest S + Sandcrest L*

*Day trips, events, activities, camping – Outwell is for outdoor living and our vast range of camping equipment is perfect for many activities. Our vehicle awnings add handy versatile living space to smaller vehicles to extend use.*

*Children love sharing family adventures and Outwell provides everything needed to help create those family moments that guarantee happy memories that leave everyone wanting more.*

# HOW TO *look after* YOUR TENT

A tent represents the major and key investment made by any camper. It is your passport to adventures and your country home from home. And, like your home, it requires looking after to ensure years of happy use.

**Y**our camping gear are tools to do various jobs that enable you to enjoy outdoor life in comfort, safety and style. And, like any tool, you need the skill base and materials to ensure they are used correctly and maintained well to ensure their performance and life span are optimised.

It is only sensible to protect your tent. Not only will it be your most pricy investment, but you expect it to provide a comfortable home for many holidays no matter the weather. A good maintenance schedule is vital and should be followed prior to use, following use, and before and after any long term storage.

It is also advisable to carry the right kit for on-site maintenance and repairs. It's not hard to pick up the skills needed to use a tent in all conditions, or to confidently approach repairs. We always advise to stock up on a selection of tent pegs needed to meet different ground and weather conditions. And, make up a tent repair kit for those rare occasions when fate throws you a curve ball.

From tent pegs and waterproof sprays to replacement poles and tubes, we carry a wide range of accessories to help you meet all situations. We also regularly update our features found at [outwell.com/Outwell Academy](https://www.outwell.com/Outwell-Academy) to help with guides, tips and skills. And our enthusiastic Outwell fans will always offer help and advice on Facebook.

## SUPPORT FOR POLE TENTS

Most tent repairs are no big deal. Take the elastic cord that joins pole sections together. It is there to help you insert the pole into the pole sleeve but it is not vital. If you cannot repair a snapped cord on site, don't panic. The poles can still be used if you carefully guide them through the sleeve to ensure the sections don't part company.

### Replacement poles

Our range of replacement fibreglass poles provide everything needed to replace a damaged pole on site. Always carry a hacksaw in your repair kit in case you need to cut the poles to length.

## SUPPORT FOR AIR TENTS

Got an inflatable tent? It is unlikely you'll damage or puncture an air tube – they are really tough and should provide years of carefree camping. But, help is near in the worst case scenario. We offer new spare air tube kits and video advice on their use so you can quickly and easily change the damaged section in the field. Colour coding helps you choose the correct kit for your needs and tube patches take care of smaller repairs.

### Air repair tube

Check out the online guide to find out which emergency repair kit you need to replace the tubes on your Outwell inflatable tent. You'll then find everything needed in the relevant colour-coded kit to make an on-site tube replacement. Tube patches and valve kits also available for quick repairs.
