## The 2022 Eclipse Pro awning range...

### ...Premium air awnings with options for both caravans & motorhomes

Comprising of 3 models in 330, 380 (updated for 2022) & 420 widths plus annexe, with the addition of a further motorhome height model in the 380 size. Adorned with a myriad of features including the famed Dura-Tech fully welded Oxygen air frame with single point inflation for super fast pitching. As with all our premium awnings, the frame is protected by our signature Intelligent Frame System backed up by our lifetime air tube guarantee.

The Eclipse Pro awning range has plenty of ventilation, with toughened zip back breathable mesh panels built into both side doors, letting in plenty of air whilst keeping out flying bugs. A full zip in mesh accessory door is also available for the central door in the 380 & 420 models as well as both side doors, perfect for warm climates.

Constructed in the luxury 600HD premium awning fabric for durability & complete weather protection, the clean lines of the Eclipse model sets the bar high when it comes to modern cutting edge design.

# CAYMAN DRIVE AWAY

## A collection of 15 models with new & updated versions for 2022

Discover the Cayman drive away family. An eclectic collection of 15 models with brand new & updated versions of existing favourite & best selling models covering all popular van heights. Never has a driveaway range covered so many possible individual requirements.

Constructed from our trusted lightweight 100HDE high density technical fabric plus the new Cayman Combo PC Air in luxury polycotton. With model options in both air frame & traditional fibreglass frames. Cayman drive aways carry an air of understated confidence with sleek design lines & classic tri colour livery to coordinate & complement any campervan or motorhome.

The Cayman Air & Cayman fibreglass glass models can be fitted with a side attaching annexe with 2 berth inner tent for added functionality. The popular 'Zip on Porch Door' is compatible on 5 new & updated models which all now feature extended canopies for 2022, enabling further compatibility with the all new 'Cabin Inner Tent', providing additional sleeping space for 2 extra people when the optional 'Zip on Porch Door' is added. Now also available in Polycotton for the Cayman Combo PC Air model.

## Twin ended versatility in breathable polycotton...

Based on the innovative and versatile Cayman Combo Air, the Cayman Combo PC Air in luxury breathable polycotton fabric offers mirrored sheltered access from both the front and back of the awning giving complete flexibility to suit individual needs. The perfect option to suit both UK & European campervans. Cleverly designed to fit on both left and right sides of a vehicle, this hybrid awning is pitched using both air tubes and fibreglass poles, with an option to add a Zip on Porch Door to the front and/or back creating a fully enclosed usable space outside the main living area with a further option to add the Cabin Inner Tent; a 2 berth sleeping inner tent compatible with both ends of the awning. The Cayman Combo PC Air comes with a wealth of features including a 'fold-flat' sewn-in groundsheet, mesh fly screen panels on all doors. Look no further than the Cayman Combo PC Air for style and versatility at a great price.

# MOVELITE DRIVE AWAY

## The all new 2022 Movelite T range - redesigned for versatility with optional add ons

A firm favourite amongst campervan & motorhome enthusiasts, the redesigned 2022 range of Movelite driveaway awnings offers models of high specification & quality for reassurance, peace of mind & years of trusted service. Constructed using our most technical lightweight 240HDE polyester (including polycotton version in the T4E PC model) for hard wearing weather protection, wherever your holiday may take you.

Featuring 4 flexible models with modular add on options such as porch door extensions, sleeping annexes & sun canopies; this has to be our most versatile and adaptable range of driveaway awnings ever.

With our signature DSV inflation valve & IF pressure relief valve with our \*Lifetime air tube Guarantee, you can be sure that the air frame will never let you down.

Discover the all new 2022 Movelite range & move your driveaway camping experience to another level.

## Updated luxury driveaway in breathable polycotton...

Re-introducing the Movelite T4E PC, the flagship model in our driveaway awning range. The best selling MoveliteT4E polycotton model has been updated for 2022 with an extended front canopy, offering increased space & functionality, especially when the optional zip on polycotton porch door is added.

Like the Movelite T4E polyester version, this awning has a back door which allows for the connection of a zip-on polycotton bedroom annexe, creating a private and enclosable permanent sleeping or storage space without encroaching on the large internal living area. The built-in front canopy can be fully enclosed using the aforementioned optional zip on porch door which comes complete with a full mesh panel, there is also a zip to allow attachment of a large polycotton Sun Canopy, creating even more functional outside living space & shelter.

Height Range  
Movelite T4E PC Low 180cm - 220cm  
Movelite T4E PC Mid 220cm - 255cm  
Movelite T4E PC High 255cm - 305cm

SHOWN WITH OPTIONAL 2 BERTH REAR PC ANNEXE

MOVELITE T2R

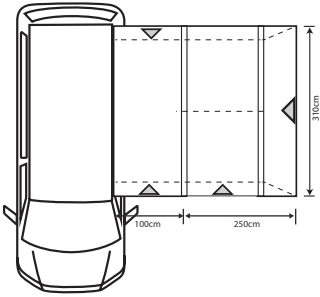

Redesigned compact premium driveway...

The all new 2022 **Movelite T2** is an exceptionally high specification driveway awning, combining feature-rich versatility and value for money in a great all-round package. The usable living space is noticeably larger due to the shear angle of the awning front, creating increased headroom height. Large panoramic tinted windows enable great views of your surroundings while doors to the front and left hand side offer multiple access options. A wealth of mesh panels make for supreme ventilation with full zip back mesh to the front & side doors. An optional Movelite Canopy can be zipped to the front to create a functional sunshade & also provides shelter when used in conjunction with the front door mesh ventilation panel. Left & right hand side cowl access doors provide further utility access options to the van & the awning rear entrance.

ETP FROM **£699**

- Key Features
- 240HDE Hex high density all weather lightweight fabric
  - Hydrostatic head 4000mm
  - Oxygen Air Frame with Dynamic Speed & Intelligent Frame relief valve system
  - LIFETIME GUARANTEE on the Air Frame System (T's & C's apply)
  - Zip back front door with Phoenix mesh ventilation full zip across panel
  - Left side door with Phoenix mesh ventilation full zip across panel
  - Lower ventilation in main living area
  - Left & right hand cowl access doors
  - Large interconnecting cowl door for easy vehicle access with ventilation
  - Tinted PVC windows with zip up fracture design curtains
  - Hanging points for optional 2 berth sleeping inner tent
  - Reflective guylines with quick adjusters

MOVELITE T3E

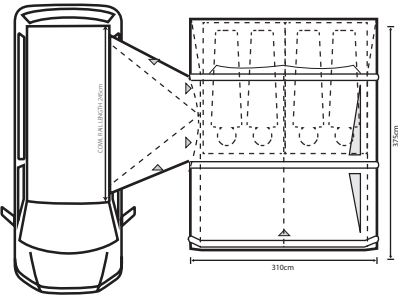

Premium driveway plus modular add-ons...

The **Movelite T3E** is an exceptionally high specification driveway awning, combining feature-rich versatility with options to expand both the functional living and sleeping space. Large panoramic tinted windows enable great views of your surroundings with a functional open front canopy area with main access door and additional zip out door to the rear, providing further access plus the option to attach a rear fitting 2 berth sleeping annexe. Compatibility with an optional 4 berth or 2 berth sleeping inner tent provides increased sleeping options, whilst the optional Zip on Porch Door with toggle in groundsheet offers the capability to expand the living space even further by closing off the awning front and increasing the usable internal footprint by around one third. Never before has a compact driveway awning offered so many options.

ETP FROM **£879**

- Key Features

# Loose weight & discover the faster, lighter awning option...

The Sportlite Air awning range for 2022 sees the addition of a further model, of which the all new 320EX brings the range up to 3 very distinct models, plus sleeping annexe option.

Each model is constructed from our tried and tested 280HDE polyester, a technical robust fabric with a high strength to weight ratio, always a bonus when keeping weight down is a pre requisite, especially when attaching the tall 320 motorhome version to wind out awning rails where weight can be an issue.

The all new Sportlite Air 320EX features an integral tall extension which can be used for extra storage space, dining or with the addition of a clip in 2 berth inner tent, can be used as a sectioned off private bedroom area.

Sportlite awning models come with zip out side doors with Phoenix mesh panels to take the Sportlite annexe on either left or right hand side (320EX to the right hand side only). A fully welded Dura-Tech air frame enables super fast single point inflation, protected by the Outdoor Revolution signature pressure relief valve.

Go Light - Go Sportlite!

## Sportlite Air 400 - Caravan awning

The ONLY Brand to Offer an Air Tube

## SPORTLITE AIR 320 EX

# Stylish lightweight modern caravan awning with integral multifunctional side extension...

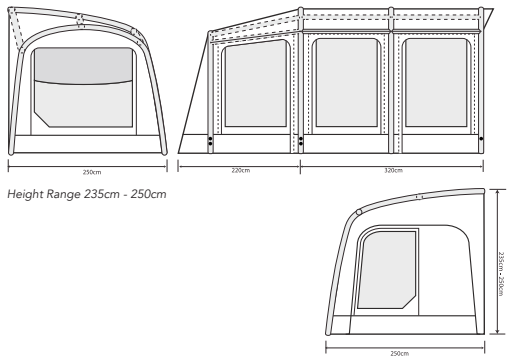

The **Sportlite Air 320 EX** is based on the popular 320 model, incorporating a multifunctional partitioned extension section, providing increased space and functionality (includes 2 berth inner tent hanging points) for smaller caravans without the restriction imposed by short connection rails. Full zip back doors across the front with the extension door incorporating a full mesh zip back panel, provide multiple access options and the ability to open up the entire awning front. A right hand fully zip off side door with mesh panel enables a zip on annexe to be attached to create increased sleeping options (sleeping up to 4 people) for larger families.

ETP FROM **£849**

## Premium air awnings with options for caravans & motorhomes...

Comprising of 3 models in 330, \*380 (\*updated for 2022) & 420 widths plus annexe, with the addition of 2 further motorhome height models in the 380 size. Adorned with a myriad of features including the famed Dura-Tech fully welded Oxygen air frame with single point inflation for super fast pitching. As with all our premium awnings, the frame is protected by our signature Intelligent Frame System backed up by our lifetime air tube guarantee.

The Eclipse Pro awning range has plenty of ventilation, with toughened zip back breathable mesh panels built into both side doors, letting in plenty of air whilst keeping out flying bugs. A full zip in mesh accessory door is also available for the central door in the 380 & 420 models as well as both side doors, perfect for warm climates.

Constructed in the luxury 600HD premium awning fabric for durability & complete weather protection, the clean lines of the Eclipse Pro model sets the bar high when it comes to modern cutting edge design.

SCREENHOUSES

A collection of 4 new quick erect screenhouse models...

New for 2022 the four Outdoor Revolution Screenhouse models feature the 'Pronto' quick erect pop-up system & can be quickly & easily set up by just one person in a matter of a couple of minutes. The deluxe DLX models come with additional features such as integral zip down & roll up privacy weather panels & side PVC windows. Fitted with tough side mesh panels for ventilation and sun protection, these screenhouse are sure to keep you cool whilst offering shelter from the wind. Kader piping is attached to all model fronts for direct attachment of an optional Outdoor Revolution windbreak (fitted with Kader piping to connect with a figure of '8' connector) for added shelter & privacy.
