

ICON AIR[®]

ICON AIR® Single Inflation Full Touring Awning

We are proud to introduce SunnCamp's **ICON AIR®** full touring awning incorporating our Air Volution (single inflation) technology guaranteeing simple and effortless pitching and take down whilst offering you maximum living space.

The **ICON AIR®** has been developed and manufactured using SunnCamp's exceptional quality materials with a vast range of features and attention to detail.

SunnCamp's PRO-TEK 300D Fabric

A super strength 300 denier high density fabric which has been developed by SunnCamp's technical team.

PRO-TEK 300D offers four times the tensile strength as standard 75D fabric and new improvements and technical developments have allowed our fabric to be specially woven and coated with layers of waterproof coating which have been evenly and uniquely applied so that the fabric keeps its ultra flexibility and softness, yet sits suitably in shape. **PRO-TEK 300D** has high tensile strength and offers increased protection from the elements and UV light.

Introducing SunnCamp's NEW 300D PRO-TEK Enhanced Roof Profile Fabric

Our new roof fabric further complementing the appearance of our products and providing a homely ambience.

Your awning is designed, hand finished and packed in the UK.

Setting up is easy...

Attach the inflator pump to the external inflation valve until you reach the correct pressure of 7 psi. Close the valve, close the internal valves and your awning is ready to use.

▲ Optional **ICON ANNEXE** – will fit either side of **ICON AWNING**

▲ Enhanced Roof Profile

▲ ▼ Non Trip Doorways

ICON AIR® - getting the correct size awning

SunnCamp's **ICON** Awning is available in eight sizes as detailed below.

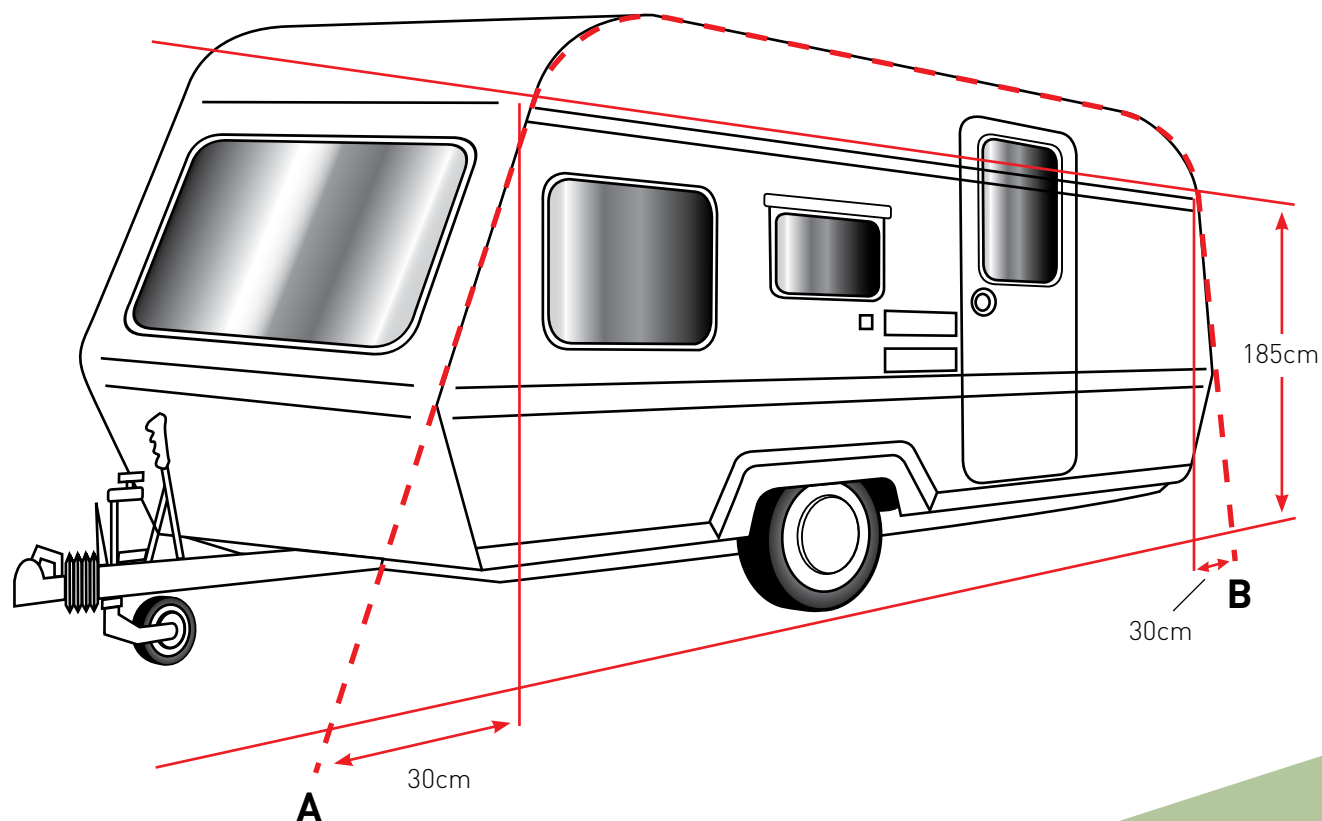

You will need to determine the correct size awning for your caravan.

To do this, simply measure your caravan's A-B measurement as shown in the diagram below.

Please ensure your caravan is level before taking this measurement. This task is easy to carry out by using a piece of non-stretch string.

Size A-B Measurement

11	900 - 925cm
12	925 - 950cm
13	950 - 975cm
14	975 - 1000cm
15	1000 - 1025cm
16	1025 - 1050cm
17	1050 - 1075cm
18	1075 - 1100cm

If you need guidance
