FAMILY AIR TENTS

AIR FRAME SYSTEMS EXPLAINED...

Outdoor Revolution have pioneered the Oxygen Air Frame System; the quickest, easiest and most reliable air frame and inflation system on the market today. A system unique to Outdoor Revolution and envied by other manufacturers of air tents.

Featured in the award winning Airedale, O-Zone & Kalahari Polycotton tent ranges, the unique pressure relief valve (IF - Intelligent Frame) is designed to regulate and control the air pressure inside the air tube and acts as a safety mechanism to prevent burst air tubes through over inflation or excessive air expansion on hot days.

Whilst factory tested up to 19PSI, we recommend the Oxygen Air Frame is inflated to a working pressure of approximately 6PSI, which is around the max pressure to which our relief valve is factory set at before it starts to release excess air pressure. Depending on ambient temperature changes, the PSI can increase dramatically on warm sunny days as the air inside the tube will expand.

If the PSI pressure increases to over the recommended 6 PSI (through either over inflation or changes in ambient temperature) the Intelligent Frame Relief Valve will expel the surplus air and maintain the air pressure within the air frame at a safe level. This unique system ensures that the tubes cannot be stressed and damaged by increasing pressures.

Deflating the Oxygen Air Frame is simple with our easy to operate DSV valve (Dynamic Speed Valve). With just a simple push of a button, the valve will expel all the air from the frame, which will deflate and come down in seconds. No messing around with unscrewing difficult to get hold of leaky, slippery and unreliable valve caps.

Because we are so confident in our air frame family tents, we offer a *LIFETIME GUARANTEE on all air frame models which incorporate our unique IF - DSV inflation system.

**Terms and conditions apply*

Technology & Innovation...

Outdoor Revolution family air tents represent the most advanced developments in modern tent technology and the very finest standards in British design and innovation. Outdoor Revolution are proud to be the industry's leading innovator of the modern air tent, to which our aim is to always listen to our customers needs when designing new products. Our 2023 range provides a broad and diverse family air tent collection, designed with new, updated and improved models to suit families of all sizes with something affordable for everyone. A complete family air tent range which truly reflects our mantra of '...Bringing the outdoors to everyone.'

Our choice of technically advanced fabrics, including premium polycotton are specifically designed and selected for their specific qualities in durability, UV and fade resistance, weather proofing and with a high strength to weight ratio. Every tent design is fully weather tested in our purpose built rain house, which simulates heavy rainfall comparable to a tropical storm. All our air tubes are fully tested individually for a minimum of 72 hours before being installed into our air tents. Our inflation and pressure relief valves are individually tested to precise high pressure tolerances in laboratory conditions before being installed into air tubes. All these things, together with some amazing new innovations for 2023 make your choice to buy an Outdoor Revolution family air tent a true leisure time investment.

Quality & Choice In Fabrics...

O-Zone Range - 480HDE - (6000mm Hydrostatic Head)

The rip-stop in the premium 480HDE high density endurance fabric ensures the optimum strength to weight ratio of any tent fabric. It has been woven using the latest high density weave textile manufacturing techniques to provide the longevity and performance of much heavier denier fabrics without the impracticality and constraints of weight. Fade resistance and longevity is guaranteed to give a high-quality performance product.

Airedale Range - 240HDE HEX - (4000mm Hydrostatic Head)

Our 240HDE fabric has been designed to deliver exceptionally lightweight yet robust, durable products, allowing smaller folded pack sizes where weight and space limitations are of consideration. This high density weave fabric is printed with our signature Hex design, visually encapsulating the technical qualities of this exceptionally strong but lightweight technical tent fabric.

Kalahari Range - Technical Polycotton

Introducing our latest breathable polycotton tent fabric. A high performance mix of cotton and polyester, creating a highly breathable yet highly water resistant technical fabric with high durability and fade resistance, keeping the tent cooler in warmer conditions, whilst also dramatically reducing condensation and humidity inside the tent, creating a more pleasant living environment.

Camp Star Range - 120HDE - (3000mm Hydrostatic Head)

This lightweight fabric has been specifically designed to deliver lightweight, compact & affordable products whilst maintaining strength and durability. Woven using the latest high density weave textile manufacturing techniques, this fabric is designed for its lightweight performance with a high strength to weight ratio.

CAMP STAR AIR TENTS - award winning value family air tents

**'GREAT VALUE FAMILY
AIR TENTS
FOR EVERYONE'**

OXYGEN
AIR FRAME

The Outdoor Revolution Camp Star air tent range is an impressive affordable collection of 8 lightweight family air tents aimed to offer couples & families the chance to own a modern air tent of high specification & functionality at unparalleled value for money without compromise to quality.

Ranging from a 3 berth compact model to the all new 9+2 berth model with twin double side annexes; this fully comprehensive range of air tent models offers something affordable for anyone with aspirations of starting out camping or simply upgrading to owning their first air tent. All Camp Star tents come with a free footprint groundsheet & Dura-Tread carpet included in the package.

When it comes to upgrading & expanding, the Camp Star air tent range offers an add on side porch & front canopies, compatible with the 500XL, 600, 700, 700SE, 900DSE & 1200 models to set off the look whilst vastly adding to the advantage of increased usable space & providing greater user functionality.

To sum up; the updated 2023 Camp Star collection really does live up to our mantra of 'Bringing the outdoors to everyone!'

CAMP STAR SIDE PORCH

'Multifunctional side porch'

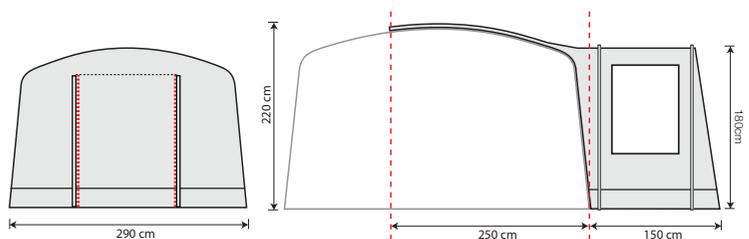

Compatible with Camp Star 500XL, 600 & 700SE - (Including 2021 models)

The **Camp Star Side Porch** is the ultimate sheltered utility space to fix alongside your tent. Featuring side windows, toggle in curtains and a removable PE groundsheet, this side porch fits snugly around the contours of your tent using a combination of pegging points and guy lines. Made specifically for cooking, storage, dining, relaxing and *sleeping (*when used with the optional 2 berth clip in sleeping inner tent), with the added benefit of being able to use the front door as a sun canopy in conjunction with optional canopy poles. Designed to fit the Camp Star 500XL, 600, 700SE models perfectly (plus previous 2021 models). Also compatible with other model ranges and other tent brands.

Key Features

- 120HDE high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Robust fibreglass pole construction
- Zip up style door - Canopy poles sold separately
- Secure weather proof connection cowl section
- Diamond clear PVC windows with curtains
- Hi Vis guylines with quick adjusters
- Clip in points for optional 2 berth inner tent
- Designed to fit the 500XL, 600 and 700 models
- Adjustable pegging system
- Includes peg set, PE groundsheet and carry bag

Camp Star Side Porch
500XL / 600 & 700SE models

CAMP STAR FRONT CANOPY

'Sun canopy & shelter'

Compatible with Camp Star 500XL, 600, 700SE, 900DSE - (Including 2021 models)

The new 2023 coordinated **Camp Star Sun Canopy** is an optional sun canopy / shelter extension, which can be attached specifically onto Camp Star tents to create a sheltered and shaded area for alfresco relaxation or sheltered cooking. Also useful for keeping furniture under during the odd rain shower. There are size 2 versions available to match specific model sizes which are simply attached by means of a simple point to point toggle system. The sturdy steel pole construction gives good stability to the canopy in moderate weather conditions. A perfect additional accessory to your Camp Star tent for those sunny mornings or rainy afternoons in the great outdoors!

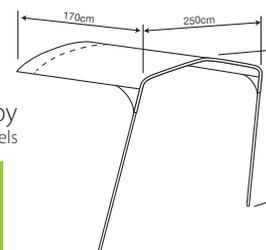

Key Features

- 120HDE high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Steel pole construction
- Toggle connection system
- Colour coordinated guylines with quick adjusters
- Available in 2 sizes to fit 500XL / 600 / 700 / 700SE / 900DSE / 1200 models
- Ground webbing spacer system
- Includes peg set, guy lines and carry bag

AIREDALE AIR TENTS - trusted multi award winning family air tents

'REINSPIRED BY CAMPERS
FOR CAMPERS'

OXYGEN
AIR FRAME

Further upgraded for 2023, the iconic multi award winning Airedale range has become a firm & trusted favourite amongst serious family campers since its launch in 2016, utilising cutting edge technologies with the very best technical fabrics, this inspired upgraded range of 4 models (*plus the Airedale 5.0S 2022 model*) offers something for everyone.

The award winning multifunctional double rear annexe (*registered design*) now features on 3 models with upgraded air tubes, offering additional sleeping, storage, toilet & utility space, plus rear access & *side window with curtain (*6.0SE, *7.0SE & *9.0DSE). With multiple ground breaking practical features including double width patio side doors with full mesh ventilation, removable easy fit front porch perimeter groundsheet, there isn't much more that we could cram in.

When it comes to upgrading & expanding, the updated Airedale air tent range offers an add on side porch awning with 2 berth sleeping option & front porch extensions, compatible with selected models to vastly increase usable living space & providing greater user functionality.

Updated 2023 models now include a footprint groundsheet & lounge liner as part of the package.

...We think you too will be inspired!

AIREDALE 5.0S

'Premium feature packed 5 berth compact family air tent'

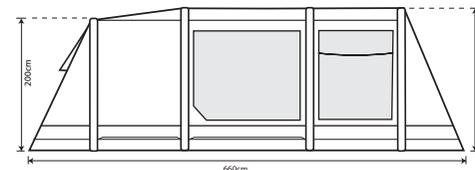

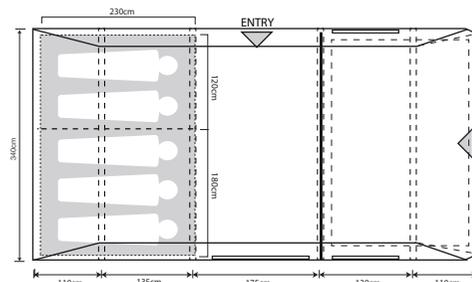

Best Compact Family Tent award from Camping Magazine in 2019, the lightweight five berth **Airedale 5.0S** inflatable compact family tunnel tent has become a firm family favourite amongst mid-sized camping groups seeking a base for memorable family camping adventures or festival use. This high-spec family tent is the quintessential design offering a wealth of space, features, flexibility and protection against the elements without a dramatic increase in pack size, weight or price. Ventilation and airflow are of key consideration in all of our family tents, which is why we have included a double width patio-style side door with a zip-back phoenix mesh ventilation fly screen panel, helping to consistently maintain a comfortable internal temperature whilst keeping bugs out. With the option to add an attractive zip-on Sun Canopy the Airedale 5.0S is the ideal air tent for couples and small families.

Key Features

- 240HDE Hex high density all weather lightweight fabric
- Hydrostatic head 4000mm
- Oxygen Air Frame with Dynamic Speed & Intelligent Frame relief valve system

AIREDALE 6.0SE

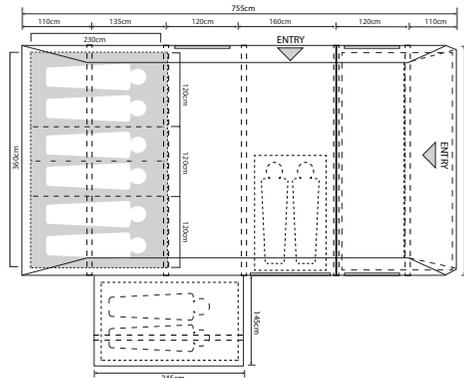

'Premium feature packed 6+4 berth family air tent with side extension'

The **Airedale 6.0SE** is an inflatable 6+4 berth family tent featuring an integral multifunctional side extension with optional sleeping inner tent. Designed with a 3-zone main body, split between 3 flexible bedroom compartments, a great sized living area and a spacious front enclosed porch. Features include a double-width patio style side door with phoenix mesh ventilation. Including additional mesh ventilation fly screen panels and our vortex bedroom ventilation system, which aids in consistently maintaining pleasant airflow and reducing internal humidity on Warner days. The darkened 'Twilight' bedroom pods create a comfortable sleeping environment. A wealth of premium features including zip-up curtains and a two-thirds roll-back central door makes the Airedale 6.0SE truly versatile family tent with added sleeping options.

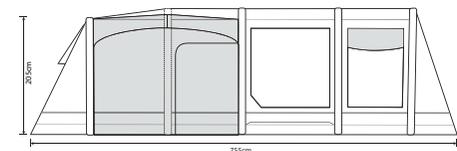

Key Features

'CAMPESE' & 'CAMPESE THERMO' PREMIUM INFLATABLE FURNITURE

'PREMIUM INFLATABLE CAMPING FURNITURE WITH ADDED WARMTH & COMFORT'

In addition to the best selling 'CAMPESE' inflatable furniture range; 'CAMPESE THERMO' by Outdoor Revolution sets the bar even higher when it comes to added warmth, luxury, comfort, support and style. Comprising of a 2 seat sofa, arm chair & foot stool.

At the heart of this award winning super soft & cosy inflatable furniture range is the all new thermo foam lined luxury fabric in blue grey mottle (another first for Outdoor Revolution) with stylish stitched quilted panels on the seat, arms & chair backs; creating the cosiest & most comfortable inflatable camping furniture range yet. The all new design chair back and side arm shape offers increased support and stability for better seated posture, whilst the exterior foam padded chair cover gives the furniture its strength & rigidity, just like your regular living room furniture. With added side pockets to conveniently store and tidy away your magazines, books or digital tablets; the Campese Thermo furniture does it all when it comes to relaxing in comfort whilst camping.

Home from home premium inflatable camping furniture with added warmth & comfort.

O-ZONE *Safari* AIR TENTS - the ultimate in premium family air tents

**'PUSHING THE BOUNDARIES
OF MODERN FAMILY
AIR TENT DESIGN'**

OXYGEN
AIR FRAME

Since the conception of the ground breaking O-Zone range in 2016, the O-Zone air tent has become the aspirational tent of choice for families looking for luxury with features not to be found in any other family air tent on the market. Updated, upgraded & pushing the boundaries of cutting edge design; the 2023 range of 2 stunning luxury family air tents deliver every conceivable function imaginable... & then some more.

Features abound in the O-Zone Safari range, such as the award winning double rear annexe (registered design) & the all new versatile front living annexe with fitted sleeping inner tent option. Twin double width patio doors with full mesh, front vestibule ventilated cooking area, roof light windows, darkened 240cm deep luxury bedrooms with removable end compartment; the list goes on. Complete the look & expand with the front porch extension.

...Pushing the boundaries of family air tent design for campers with aspirations!

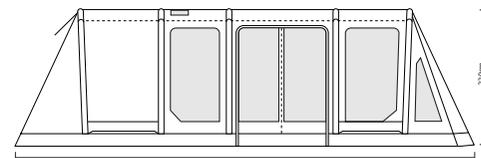

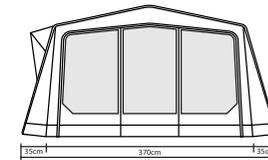

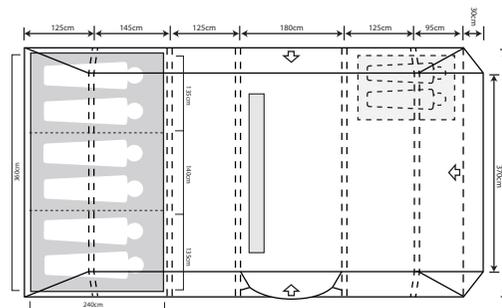

O-ZONE 6.0XTR *Safari*

‘Feature packed PREMIUM 6+2 berth compact family air tent’

The **O-Zone 6.0XTR Safari** has become ‘the’ sought-after model following its release in 2020. This premium family air tent utilizes an intelligent design to maximise space, flexibility and longevity, offering unique sleeping options to comfortably accommodate up to eight adults. Constructed from a heavy-duty 480HDE high density rip stop material, this tent is packed full of premium features, including the new addition of double-width side access doors and the unique sewn-in front porch groundsheet. There is a zip back internal divider panel which can be used to isolate the front porch as a sleeping area if desired. An optional front porch extension and side veranda canopy can be added to create an unprecedented amount of sheltered living space, making it perfect for winding down with friends, family or unexpected guests.

Key Features

- 480HDE premium rip-stop fabric
- Impressive 6000mm hydrostatic head
- Inflatable ultra sturdy XL Gothic arch Oxygen Air Frame
- **LIFETIME GUARANTEE** on the Air Frame System (T's & C's apply)
- Dynamic Speed Valve & Intelligent Frame relief valve
- Double width veranda style door to both sides with Phoenix mesh ventilation
- Internal multi position zip back / zip out partition door with Phoenix mesh side windows and zip up curtains
- Roof light window
- Reflective guylines with quick adjusters
- 240cm deep, darkened twilight micro polyester 6 person bedrooms with 2/2/2 dividers
- Tinted anti glare panoramic windows with zip up leaf design curtains
- Fully sewn-in PE groundsheet
- Front porch left side upper window Phoenix mesh ventilation / insect screen with zip up internal PVC storm cover
- Includes pump, peg set, repair kit, storm straps and wheeled carry bag

KALAHARI PC 7.0

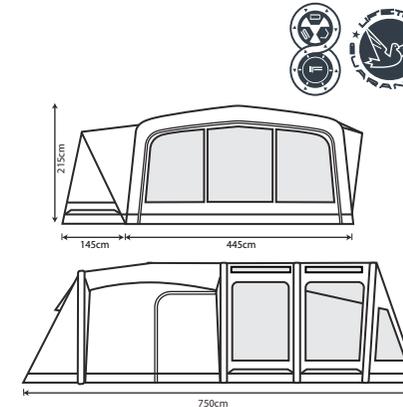

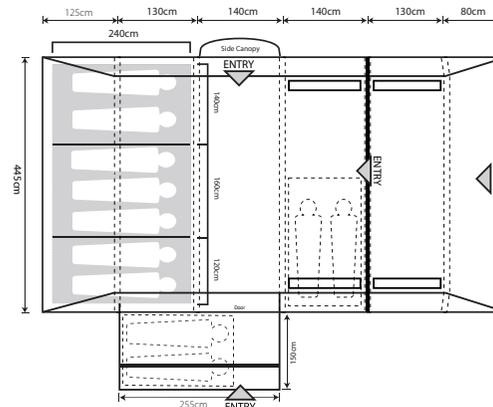

'7+4 berth premium family air tent with multifunctional double side annexe'

The 7 berth **Kalahari PC 7.0** breathable inflatable family tent, created from a durable, breathable and water resistant polycotton material. Based on the perennial success of the Airedale 7.0, we have taken the innovative side porch to the next level with an exclusive multi-functional double side annexe; this annexe has been designed to function as an access point, flexible utility space or two berth sleeping bedroom, giving you the option of increasing sleeping capacity by 2. A maximum sleeping capacity of 11 can be reached, should you choose to purchase a secondary optional 2 Berth Inner Tent. The parallel design of this porch area means that only a fraction of extra space is utilized at the side of the family tent.

SCREENHOUSES & WINDBREAKS - we've got you covered!

**'SUN SHELTERS &
WINDBREAKS - SUN, WIND &
RAIN WEATHER PROTECTION
FROM ALL SIDES'**

A range of stylish and practical shelters & windbreaks with models designed for speed of set up & ease of use. Featuring 4 Screenhouse models, 2 polled windbreaks, 4 pop-up windbreaks, 2 air windbreaks & an all new pop-up beach shelter.

The 4 screenhouse models feature the 'Pronto' quick erect pop-up system & can be quickly & easily set up by just one person in a matter of a couple of minutes. The deluxe DLX models come with additional features such as integral zip up privacy/weather panels, side PVC windows & kadeer piping to attach an optional windbreak for added shelter & privacy.

The all new 'Beach Bum' beach shelter with the instant 'Pronto' quick erect pop-up system has everything that you need in a compact beach shelter including zip up security front door, groundsheet, side mesh ventilation with curtain, sand pockets & sand spikes.

The best selling 'Pronto' windbreak range has been expanded to 4 models; each model specifically coordinated to our tent, driveaway & awning ranges. In addition to the windbreak range we have added to the Oxygen inflatable range with new features & a new modular model designed specifically for camping.

Whatever the weather, come rain or shine, we've got you covered.

Screenhouse 6 DLX shown with optional Pronto Compact 3 windbreak.

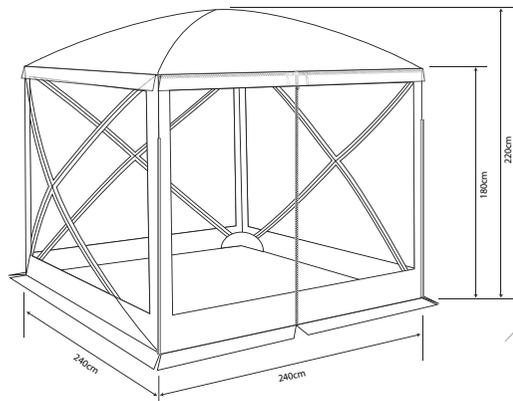

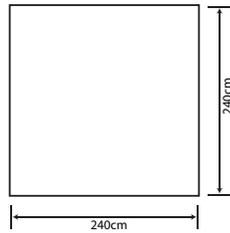

SCREENHOUSE 4

2 BERTH CLIP IN INNER TENT for driveaways, awnings & tents

Outdoor Revolution's **Two Berth Inner Tent** is the perfect optional extra bedroom for caravan awnings, driveaways & family tents, increasing the sleeping capacity by two. We have given this bedroom a universal fit across our latest collections, making it compatible with an extensive selection of models. The inner tent can be effortlessly clipped in/out of the corresponding coloured clips, which are usually situated in the rear section of your product to keep conditions comfortably dim, creating a more relaxing sleeping atmosphere.

2 BERTH CLIP IN INNER TENT

Material: Polyester
Size: 205 x 130cm (floor area)
Pack Size: 60 x 40 x 33cm
Weight: 1.6kg

AIR POD INNER TENT for driveaways, awnings & tents

Outdoor Revolution's two berth Air Pod Inner Tent is an innovative free standing inflatable 2 berth sleeping inner tent, designed to be quickly inflated and positioned in any space inside a tent, awning or driveaway to provide instant additional sleeping accommodation for up to 2 people. The inflatable free standing design allows the Air Pod to be moved around to any desired position and then quickly deflated and packed away during the daytime when not in use to free up living space. Updated with darkened fabric to block out more light for a better nights sleep

AIR POD INNER TENT

Material: Polyester
Size: 210 x 135cm (floor area)
Pack Size: 58 x 19 x 15cm
Weight: 0.9kg

EXTENSION CANOPY POLES for driveaway awnings & tents

Outdoor Revolution's **Extension Canopy Poles** is a pair of robust steel poles, which can be used to raise the zip up door of your drive away awning or family tent (compatible with certain models only) into an upright position, in order to create a functional sun canopy or sheltered porch area, where you can comfortably relax or cook with shelter from the elements. Each pole conveniently breaks down into 4 short connected sections for convenient storage when not in use.

EXTENSION CANOPY POLES

Material: Steel
Full Length: 202cm
Pack Length: 115cm

ADJUSTABLE STRETCHER POLES for driveway awnings & tents

Adjustable Roof Stretcher Poles are designed to tension the roof in your tent or driveway awning to aid water run off & are compatible with selected Outdoor Revolution tent & driveway models. Each end is flattened for easy insertion into the roof pole pockets in the tent or driveway awning. Available in 2 lengths covering 115-215cm & 102-136cm. Sold in pairs in a convenient draw string polyester bag.

ADJUSTABLE ROOF STRETCHER POLE - (LONG)

Material: Steel
Length: 115cm - 215cm
Pack Length: 115cm

ADJUSTABLE ROOF STRETCHER POLE - (SHORT)

Material: Steel
Length: 102cm - 136cm
Pack Length: 102cm

12V DC ELECTRIC AIR FRAME INFLATOR

The Outdoor Revolution **Electric Air Frame Inflator** air pump is a reliable high pressure DC 12V air pump (manufactured by Bravo for Outdoor Revolution), designed for the inflation of tent, awning & driveway air tubes as well as being suitable for high pressure inflatables such as SUP's and anything with a large volume high pressure air capacity with a max pressure up to 18PSI. The pressure can be set at the desired pressure with automatic cut off when the selected pressure is reached to prevent over inflation.

Size: 24.5cm x 10cm x 11.5cm
Power: 12v DC vehicle cigarette socket
Max pressure: - 18psi
2.5m electric power cable with cigarette lighter plug
1.7m high quality air hose (EDPM), 20mm Diameter
Fitted with valve adaptor to fit Outdoor Revolution DSV valves.
Weight: 1.5kg
Certification: CE, UKCA, RHOS, REACH

ELECTRIC INFLATOR

Power Source: DC 12V
Max Pressure: 18PSI
Includes: end adaptor & hose

COOKING, HEATING & COOLING...

'A COMPREHENSIVE RANGE OF ACCESSORIES FOR ALL YOUR CAMP COOKING, HEATING & COOLING NEEDS'

The Outdoor Revolution cooking, heating & cooling range covers everything you need for your camping adventure in 2023 with popular models & innovative new additions.

A focussed range of gas, electric griddle grill plate, single & double electric induction hobs (*induction compatible cookware also available*) for 2023. Featuring our unique & best selling twin burner gas stove and grill which takes a Butane Propane screw fitting resealable gas canister. There is no need to use a separate hose and regulator with a refillable gas cylinder, cutting down on space & weight.

A focussed range of compact gas & electric heaters for those chilly evenings under canvas. Featuring a convenient butane propane gas canister compatible model, providing fast efficient heating wherever you are. Also a low wattage mains electric eco heater, providing convenient energy efficient heating.

Finally a range of 3 models of efficient electric compressor coolers in 26L, 35L & 45L capacities, featuring twin zone compartments with chilling & freezing temperature ranges of between 20C° to - 22C°. A perfect portable unit for chilling perishables & making ice.
